Subject: From Lincoln Bylaw

- (k) Periodic monitoring of radio frequency and acoustic emissions will be required to confirm compliance with applicable regulations. This monitoring shall be performed by an independent agency acceptable to the Planning Board. Costs related to the periodic independent monitoring shall be paid by the wireless communications service provider(s);

12.6.4 SUBMITTAL REQUIREMENTS. As part of any application for a special permit, applicants shall submit, at a minimum, the information required for site plan approval, as set forth herein at **Section 17**. In addition and without limiting the foregoing, the applicant shall also provide the following supplementary information, which the Planning Board may waive if the Board determines such requirements are not relevant to the current application:

- a) notarized statement signed by the applicant(s) that all information included in the submittal is materially accurate, true, complete, and verifiable (inaccurate, untrue, misleading or false information submitted in pursuit of a special permit by the applicant, the provider company or their agents may be grounds for denial of a special permit),
- b) A map of the entire town and the area of within two (2) miles of Lincoln's boundaries showing the location(s) of:
 - 1) Existing Wireless Communications Facilities and proposed facilities to be applied for over the next 20 months by the applicant's wireless communications service provider company.
 - 2) Existing Wireless Communications Facilities and known proposed facilities of other service provider companies;
